

Introduction to Construction: Bricklaying

DEVELOPING BRICK LAYING SKILLS

This course provides basic building blocks in preparation for further training in Construction or an Apprenticeship. It is suitable for learners of all abilities.

The course takes one day per week for 6 weeks and includes Teamworking and Maintenance of Safe, Hygienic and Secure Working Environment. It is part of our suite of 3 *Introduction to Construction* courses. It includes an overview of the Construction sector and the range of jobs and career pathways in it. It takes place at a central Coventry training centre. Alternatively, it may also be provided for individual schools on their premises for a minimum group of 6 learners. It may be possible to offer accreditation of a NCFE awarding body unit. We would be pleased to discuss your requirements.
